Subject: **Panic Bar Length**

Description: In order to better serve our Client's Tubelite will shorten the length of our standard RIM and CVR panics by $\frac{1}{2}$ ". This change will allow us to move the centerline of the rim panic away from the frame jamb an extra $\frac{1}{16}$ " to resolve an ongoing issue of the covers coming into contact with the strike/door stop. All ordering and pricing information will remain the same.
